

LEISURE YACHTS

L.O.A: 18' (5.48m.) BEAM: 7'4" (2.21m.) DRAFT: 2'3" (0.68m.)
WEIGHT: 1800 lbs (818 kg.) SAIL AREA: 190 sq ft

The **LEISURE 18** is the ideal trailerable small yacht for family or couples cruising. The cockpit is safe and comfortable. Halyards and reef lines are led aft which means sail handling can be carried out from the security of the cockpit. The modern hull design features a recessed transom step for easy boarding. Underwater the aerofoiled lead ballasted twin keels make for efficient sailing with excellent stability yet only 2'3" draft for shallow water cruising and ease of trailing and launching. The skeg hung rudder allows the boat to take the bottom safely. An outboard is well fitted under the cockpit seat, or the boat can be fitted with an 8h.p. saildrive diesel engine.

Down below with the three berths and enclosed heads compartment, the **LEISURE 18** has the feel and space of a much larger yacht. The forward accommodation has two full length settee berths with cushioned backrests. The galley has a sink and two burner cooker. To port is a quarter berth and to starboard is the heads compartment

The **LEISURE 18** represents excellent value for money.
